

# Calibrations LABORATORY

[www.metronco.gr](http://www.metronco.gr)

## Calibration services on metering systems are essential in order to guarantee precision and eliminate costly errors in the oil industry.

**METRON energy applications**, specialized in petroleum measurement has established a Calibration Laboratory in the field of Volumetric Vessels and meters for petroleum products, implementing relevant international standards (API, MPMS, ISO).

The laboratory is accredited by the **Hellenic Accreditation System (ESYD)** with certificate No. 738-2, valid from May 27 - 2011.

As part of the accreditation, the laboratory implements a Quality Management System according to **EN/ISO 17025**. The technical competence of the laboratory results from the continuous compliance of the equipment, the facilities and the technical competence of personnel.
