Proving & Calibrating systems

Construction of customized solutions

Supporting of installation & operation globally

- International EPC contractor in the Oil & Gas market - 20 years of experience in designing & manufacturing of all types of metering, proving & calibrating systems
- Full compliance to all international regulatory frameworks & standards
- In-house engineering capable to conform to any international technical norm & specification
- Project management securing qualitative & "on time" delivery
- Highest grade of in-shop pre-fabrication
- Factory acceptance test procedures ensuring the highest performance
- Installation on site services including commissioning & start-up repairs

Volumetric Field Standards

(Test Measures & Provers)

Free Standing Measures/ Provers designed to meet client requirements and given specs

Mobile (trailer, truck mounted)

Water draw and volumetric calibration facilities

Top/ Bottom Loading

Workshop and Field prover calibration services

Technical Features for Tank Provers

Type: Graduated neck

Standards: API, MPMS, NIST, OIML, ASTM

Fluid: LPG, gasoil, gasoline, jet fuels, fuel oils

Material of construction: Carbon steel, stainless steel

Design temperatures: -29°C to 162°C

Design pressure: ANSI CLASS 150

Accessories: Drain pump, couplers, hoses, sight glasses, level indicators, levels, temperature gauges

Examples of our experience

Queen Alia International Airport
Jordan

Baiji Oil Refinery
Iraq

OCTA Refinery
FYROM
