METRON
energy applications

Fuel terminal San Antonio 1st stage

Design, Supply, Manufacturing and Commissioning of loading and unloading compact (custody transfer) metering units for crude oil, refinery products, LPG, fuel oil, bitumen or chemicals, for applications related to truck loading, train loading and ship loading. The design and construction of the skids will be in compliance with the international standards or local regulations and based on client specific design requirements.

Scope

Engineering, procurement and fabrication of truck loading skids
