

Test rig with prover tank
Queen Alia international
airport

Design, Supply, Manufacturing, testing and calibration of meter proving systems for petroleum products in compliance with the international standards and regulations. The prover can be stationary or mobile and the design can follow client specific requirements based on application. Available prover type are: Tank provers, master meters, bi-directional pipe provers

Scope

Detailed engineering and fabrication drawings, procurement and supply of all mechanical and instrumentation equipment, prefabrication / assembly connection and installation of 1 tank prover 5000l

TECHNICAL DATA

Region- Country:	Asia, Jordan
Location:	Queen Alia international airport
Project:	Test rig with prover tank Queen Alia international airport
Client:	JORDAN PETROLEUM REFINERY CO.LTD
Class:	150#
Flowrate:	UP TO 2000 USGPM
Fluid:	JET A1
Date:	2014
